- 2 Superintending Engineers 1st, 3rd to 12th, 14th, 15th & J Nagar Circles

Sub:

Submission of RMMS data for the preparation of AMP 2015-16. Preparation of Road Condition Data of this year 2014 and up dation thereof.

As you all are aware that that Road Maintenance & Management System (RMMS) data is collected every year after rainy season to facilitate preparation of Annual Maintenance Plans for the next year. The rains are over this year and it is time to collect Latest Road Condition data. You are requested to issue directions to divisions under your jurisdiction to prepare the latest data and submit it positively by end of October 2014. For preparation of the data following points must be kept under consideration;

1. **Preparation of Road Inventory data:** This data is prepared for newly constructed kms during the year. It must be ensured that data of every km of road which has been constructed under the division may be entered in the RMMS software. No km shall be left to be reflected in the data whether it is BT road/non BT road/road constructed under PMGSY/NABARD/State Road Project/Constructed under any other head /Internal roads within towns which are HPPWD's property. The formats for Last Treatment Year must be filled for every chainage of road along with date of data collection. It has been noticed that traffic data is not being updated and some divisions are either submitting the old data or are not submitting any data. This is a very important aspect required for prioritization of roads for AMP.
2. **Preparation of Road Condition data:** This data is required to be updated every year for each road section. The defects must be identified properly and shall be entered accordingly. This data is most important for decision making for selection of roads for AMP
3. **Data for PMGSY Roads:** During the processing of data last year (2013-14) it was noticed that in most of the cases the name of roads has been written wrongly in RMMS data which are not tallying with the actual names as per OMMAS or as per DPR name. Thus, it is required that every PMGSY road shall be entered in data and total length of roads & name shall tally with that of OMMAS. The package no. of PMGSY road as per OMMAS shall be reflected in "Original Programme" column of RDSO1 format.

JE (TD)
based on circular (technical)
for PMWT section also

4. **Data verification:** The Road Condition data shall be checked by concerned Executive Engineers and he shall furnish a certificate to the extent that "RMMS data of all roads under my division has been prepared and no road is left. The data submitted is correct to the best of my knowledge". The 10% data shall be got checked by the concerned AE (Maintenance Management) of each Zone. Further to help the divisions in data entry, running of RMMS software, the Road Maintenance Engineer of Project Management Consultant (PMC) Sh S K Sahay (Mobile No. 98161-30266) shall also visit the field divisions along with RMMS expert Mr. Narender Pal (Mobile No. 94184-30102, 98160-96369) The Executive Engineers shall feel free to contact Mr. S K Sahay & Mr. Narender for solving any problem regarding RMMS.
5. **PCI data:** As per requirement of PMGSY programme the PCI data for every road section shall be collected and entered in OMMAS. Every division is collecting and updating PCI in RMMS but not updating the same on OMMAS therefore it is may be ensured that PCI data of every road under the division shall be entered in OMMAS at url <https://online.omms.nic.in/>. For any query regarding this data entry field engineers may feel free to contact Mr. Narender Pal (Mobile No. 94184-30102, 98160-96369) and Computer cell of this office on 0177-2625159. It may be noted that no data for AMP shall be considered until it is ensured by the concerned division that PCI data of all roads has been entered on OMMAS

The RMMS data completed in all respects on CDs or DVDs shall reach this office by October 31st 2014 positively. The data should be sent through a person who is well versed with the data collection /data entry.

Engineer-In-Chief,
HPPWD, Nirman Bhawan Shimla

Copy to:

1. All field EEs for information and necessary action.
2. Mr. N K Saxena, Team Leader of Project Management Consultancy (PMC), M/s Meinhardt Singapore Pte. Ltd., Mastubara, Sargheen, Tehsil & Distt. Shimla-171009 for information. He is requested to depute Mr. S K Sahay & Mr. Narender Pal to start the process of visiting field offices as per above.
3. Nodal Officer (IT) this office for information.

Engineer-In-Chief,
HPPWD, Nirman Bhawan Shimla
